Record Trip Yokohama to San Francisco made by S.S. "KOREA," 12,000 tons, Oct. 18th-28th, 1902; 10 days, 15 hours.

The P. M. Company's Steamship "CITY OF PEKING" will be despatched for SAN FRANCISCO, via SHANGHAI, NAGASAKI, KOBE, INLAND SEA, YOKOHAMA and HONOLULU, on SATURDAY, the 6th June, at Noon, taking Freight for Japan, the United States, and Europe. Passengers are allowed to break their journey at any point en route.

Through Passage Tickets granted to England, France and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada.

Passengers holding through ORDERS TO EUROPE have the choice of the Overland Rail Routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAILWAY; also the CANADIAN PACIFIC RAILWAY on payment of £4 in addition to the regular tariff rate.

Passengers holding Orders for OVERLAND CITIES in the United States have between SAN FRANCISCO and CHICAGO, the option of the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and other direct connecting railways, and from Chicago to destination the choice of direct lines.

Special rates (first-class only) to European Ports, are granted to Missionaries, Members of the Naval, Military, Diplomatic and Consular Services, and European Civil Service Officials located in Asia, and to European Officials in the Service of the Governments of China and Japan.

TO UNITED STATES AND CANADIAN PORTS, Special rates (first class only) are granted and will apply only to Missionaries, Members of the Naval and Military Services, and to Consular and Diplomatic Officials of the Governments of China and Japan.

Return Passage.—Reduction will be made to passengers who do not hold return tickets, making the return journey between ports in the Orient and Honolulu or beyond, within twelve months.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports, to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway, to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Companies' and connecting Steamers.

Freight will be received on board until 4 P.M. the day previous to sailing. Parcel Packages will be received at the Office until 5 P.M. same day; all Parcel Packages should be marked to address in full; value of same is required.

Consular Invoices to accompany each shipment of Cargo or parcel (valued at \$100. Gold or over) destined to Ports, beyond San Francisco, in the United States, should be sent to the Companies' Office addressed to the Collector of Customs at San Francisco.

Merchant's Invoice will be sufficient for cargo or parcel (each shipment) when the value is less than \$100. U.S. Gold.

For further information as to Passage and Freight, apply to the Agency of the Companies, Queen's Building.

"ATHENIAN"	3,882 "	WEDNESDAY, 12th August.
"EMPRESS OF INDIA"	6,000 "	WEDNESDAY, 26th August.

The magnificent "EMPRESS" Twin-screw Steamships of this Line pass through the famous INLAND SEA OF JAPAN, and usually make the voyage YOKOHAMA TO VANCOUVER (B.C.) in 12 DAYS, ("TARTAR" and "ATHENIAN" 14 DAYS), saving THREE DAYS TO A WEEK in the Trans-Pacific journey, and make connection at Vancouver with the PALATIAL OVERLAND TRAINS of the CANADIAN PACIFIC RAILWAY which leave daily, and cross the Continent FROM THE PACIFIC TO THE ATLANTIC WITHOUT CHANGE. Close connection is made at Montreal, Quebec, Halifax, New York and Boston with all Trans-Atlantic Lines, which passengers to Great Britain and the Continent are given choice of.

Passengers Booked through to all principal points and AROUND THE WORLD. Return tickets to various points at reduced rates, Good for 4, 6, 9 and 12 months.

SPECIAL RATES (First class only) granted to Missionaries, Members of the Naval, Military, Diplomatic and Civil Services, and to European Officials in the Service of China and Japan Governments.

The attractive features of the Company's route embrace its PALATIAL STEAMSHIPS, (second to none in the World), the LUXURIANCE OF ITS TRANS-CONTINENTAL TRAINS (the Company having received the highest award for same at Chicago World's Exhibition), and the diversity of MAGNIFICENT MOUNTAIN AND LAKE SCENERY through which the Railway passes.

THE DINING CARS AND MOUNTAIN HOTELS of this route are owned and operated by the Company, and their appointments and Cuisine are unequalled.

"HER-  
CU-  
LEX"

for

Nerve  
Weakness

"HER-CU-LEX" is the latest invention of Dr. Sanden, the pioneer of Self-Treatment with Electricity. Popular throughout the world as a natural, common sense remedy for Nerve and Brain Exhaustion, Indigestion, Constipation, Pain in the Back, Rheumatism, Declining Vigor, Urinary Weakness, Sluggish Organs, Impotency, etc.

Not "a cure-all" but an ideal cure for all disorders or weakness resulting from overwork or excess of any nature. It is simple, harmless, convenient; has a perfectly constructed battery enclosed in comfortable cloth case. Worn about the waist nights, or during the evening, the mild, soothing currents invigorate the nerve and vital centres, awaken dormant nerves, strengthen relaxed muscles and induce natural secretion of the vital fluids. This improves digestion, enriches quality of the blood and accelerates its circulation, and has a direct beneficial influence upon the bowels, regulating their action in a natural way. Used during a period of rest, it conforms with the processes of Nature in every way.

Dr. Sanden's method of self-treatment, WITHOUT DRUGS, is the only self-treatment consistent with natural law and appeals to reason and common sense as filling a long felt want among those who are neither sick nor well, who are "all run down," and just dragging along in a half hearted manner; also, to those who have concluded that drugs cannot cure them. With ordinary care, "HER-CU-LEX" will last for one year, is not bulky, makes no noise and is as comfortable as your clothing. If you are weak or otherwise ailing, send for Dr. Sanden's latest book, "Health in Nature," free upon request, securely sealed.

Every weak man should read it. It will prove interesting to you, as it has to others who had despaired of recovery by other means. Send at once and write name plainly. Address, mentioning this paper.

## THE WORLD'S CAPITAL.

STRIKING FIGURES OF LONDON  
AND ITS PEOPLE.

London still stands undisputed the queen city of the world. This is the one fact that runs through the solid volume of "London Statistics" published by the County Council.

With six and a half million people, she has more than enough to populate Berlin, Chicago, Vienna, and St. Petersburg as they are now peopled and yet leave a prominent city behind. The great growth of population now steadily tends to be concentric. Once men left the city for the suburbs now in turn they are beginning to leave suburbs for the Greater London, from Reading and St. Albans to Tonbridge Wells, where town imperceptibly is merged in country. The electric car for the poor and the motor for the well-to-do are without doubt introducing a new era for the distribution of London population.

The most impressive thing about the statistics of London is the violent contrasts they present. There are nearly 130,000 paupers, 30,000 people live in common lodging-houses, and 726,000 dwell in overcrowded rooms. Yet the annual value of house property for taxation purposes alone is over forty millions.

Some of the facts are depressing. Pauperism steadily rises. Our shipping declines. The heavy burden of the rates increases without ceasing, and the burden falls heaviest on the poorest districts. Thus St. George's, Hanover-square, pays 5s. 5d. in the pound, while Bow pays 9s. 5d.

AMUSEMENTS FOR 40,000.  
Some of the figures, by their magnitude, lose their meaning. Thus it is difficult to realise the size implied by the statement that there are over two thousand miles of streets in the County of London. One figure is smaller than might be expected. There are only 350 places licensed for public entertainment, of which fifty-nine are theatres and forty-two music halls. The Council omits to provide statistics about the churches.

One of the most entrancing chapters is found in the statement from the medical officer for London. The birth-rate is below the average for the whole country, and is steadily declining. The birth-rate varies, too, almost exactly according to the poverty of the district. St. Luke's, perhaps the poorest parish, has most births, and is immediately followed by St. George's-in-the-East. Then come Mile End Old Town, Bethnal Green, and Southwark. At the top, with little more than a fifth of the births, proportionately, of the poorer parts, come St. George's, Hanover-square, and St. Martin-in-the-Fields.

When it comes to deaths, the same proportion holds in the main. St. George's, Southwark, and St. Luke's head the list. Hampstead has the lowest death-rate, and judged by these returns is the healthiest part of London.

The volume brings out clearly the costliness of London life. The Board schools cost nearly 25 per cent. more than other places for each child. The poor relief costs twice as much per head. The local debt is one-fifth that of the whole of England and Wales. London contributes 21 per cent. of the income-tax of the country. Over 26 per cent. of the persons sent for trial and 31 per cent. of the persons sentenced to death come from the metropolis.

MR. JOHN BARRETT ON THE  
FAR EAST.

ASIATIC COUNTRIES TO BE WELL REPRESENTED AT ST. LOUIS FAIR.

Mr. John Barrett, former United States Minister to Siam, who for the last ten months has been in the Far East as Special Commissioner for the St. Louis Exposition, left Paris for London by way of The Hague. Before he left, the *N. Y. Herald* reports, Mr. Barrett had an interview with the Minister for the Colonies in regard to the participation of French Indo-China in the Exposition.

Mr. Barrett returned to Paris a few days ago from India, where he saw the Coronation Durbar at Delhi. During the ten months he has been in the East he has travelled extensively in Japan, Korea, Eastern Siberia, China, Siam, the Straits Settlements, Ceylon and India. He told me yesterday that Asiatic countries and colonies would make exhibits on a very extensive scale at the St. Louis Fair.

"Among the people I visited," said Mr. Barrett yesterday, "I found a general apathy in regard to the Exposition, due largely to unfortunate experience with other World's Fairs, some of which were failures. I think that a general and, I might say, a very deep interest has been aroused. I urged that they should make what I called a thoroughly 'legitimate' exhibition, in contrast with the Oriental 'midway' affair known at expositions of the last few years, so that Americans might have an opportunity of making a serious inspection of their products."

"It is likely that French Indo-China will make a very creditable exhibit at St. Louis. That country is a very close neighbour to the Philippines and there is great similarity between them in people and language, and to a certain extent both have the same sort of problems to face. The exhibition at Hanoi was the greatest ever held in Asia, and I am trying to arrange to have part of it sent to St. Louis."

"I visited all the provinces of China in the course of my work, and the development there going on is tremendous. Wonderful strides in progress have been made in the East since I first saw it in 1894, and they are small compared to what will happen within the next ten years. I found the Coronation Durbar at Delhi most interesting. One saw there things impossible for words to represent accurately. There were about fifty Americans among the visitors. It was a most impressive sight to see the one hundred Indian princes, each really a king, doing homage to the king of a comparatively small country thousands of miles away, but who was their emperor."

## A FOOLISH OLD IDEA.

It was once thought that a medicine was all the more beneficial for having a nasty taste and smell. We now know that such an idea is perfect nonsense. There is no more reason why medicine should offend the senses than why food should do so. Therefore, one of the greatest chemical victories of the past few years is what we may call the redemption of cod liver oil. Everybody knows what a vile taste and smell this drug has in its natural state. No wonder most people declare they would rather suffer from disease than take cod liver oil, and the emulsions are quite as foul and abominable as the plain oil, no matter what may be alleged to the contrary. Now it is one of nature's laws that a medicine which disgusts the nose and the palate, and also sickens the stomach, can have no good effect as a medicine; because the system revolts against it, and cries out to be delivered from it. In

WAMPOLE'S PREPARATION the desired miracle is wrought, and we have the valuable part of the oil, without the other. This effective modern remedy is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. The palate accepts it as it does sugar, confectionery or cream. Taken before meals it goes to the very secret stronghold of digestive disorders: prevents and cures Nervous Dyspepsia, Anemia, Throat and Lung Troubles and all diseases due to impurity of the blood. Dr. G. C. Shannon, of Canada, says: "I shall continue its use with, I am sure, great advantage to my patients and satisfaction to myself. It has all the virtues of cod liver oil; none of its faults. It was made to cure and it sells because it cures. One bottle convinces. Effective from the first dose. 'It never disappoints.' Sold by chemists the world over and A. S. Watson & Co., Limited. 11

HONGKONG, TUESDAY, JUNE 2, 1903.

## THE DISTURBANCE IN YUNNAN.

Are there any indications of a revival in the near future of the claims of France to step across her frontiers and suppress the risings in Kwangsi and Yunnan? The question is again suggested by the measure of success which insurgents in both Provinces have recently obtained and which, according to a telegram received by M. Réau, the Acting Consul for France, and courteously placed at our disposal, is at present jeopardising the lives of many of his nationals in Yunnan. The information published exclusively in the columns of the *Telegraph* last evening is to the effect that native officials had informed the French Consuls at Yunnanfu and Mengzi that the situation in that Province had grown so serious that they urged them to at once call in the workers on the railway line now being built between Tonking and Yunnanfu. This they evidently proceeded to do, and, according to the telegram received from Yunnan Province, both the Capital and Mengzi have been besieged for the past fifteen days. But a wire received at Shanghai the other day and printed in northern papers just to hand, states that the Viceroy Ting Chengto, of Yunnanfu, ordered out, on the 23rd ult., three battalions of his own brigade with instructions to proceed with all haste to the walled city of Linanfu, where a mob of miners had murdered the prefect. This, of course, is not borne out by the latest information available, as apart from the fact that on the 20th May, Yunnanfu was entirely surrounded by a mob of cut-throats, there were only some two hundred native soldiers in the city and the authorities were at their wits' end to know the best course to adopt. Even though they might have been able to march on Linanfu for the purpose of relieving the walled city, it is certain they would almost meet with disaster from the rebels holding that city and those of Chepingcheou and Homitcheou. The *China Gazette* referring to the disturbance says, "the so-called bandits are workmen employed at a copper mine at a distance of five or six days' journey from Linanfu. They are said to number at least 100,000. They are in the habit of making trouble for the officials every year and are famous for their daring courage. These workmen are supposed to be in league with the Kwangsi bandits, and it is also believed in certain quarters that they are going to join these last-named gentry. Since the beginning of May the French authorities have sent many French soldiers, in connection with railway building, into Yunnan. The turbulent miners have had many encounters with these French troops. More than 100,000 of the workmen leagued together and are causing all the trouble. These are the people who captured Linanfu. Another telegram, which reached the *Wai-Pu* on the 22nd ult., says that when the bandits encountered the French soldiers, there were many of the latter captured, and the Mission at Linanfu has now been destroyed. There were two or three French priests stationed there and these were killed on their way to Yunnanfu. The railway in the South of the Province has been destroyed, and the French Minister says that as the Yunnan disturbance is so much more serious than that in Kwangsi, French troops have been sent and more will follow to the first named Province. The walled city of Linanfu is a very well-protected city strategically, and long ago Ma Julung, the head of *Miao*, with about 200,000 bandits, surrounded it, but was not able to take the place. The present bandits, who are under Chao Yung-chang, have captured the city very easily, so that it is evident that they had been very much enraged at the state of affairs. It is also reported that these insurgents, as they must be called, have modern rifles. The Prefect and Major of Linanfu have been dismissed in compliance with the telegraphic memorial of the Viceroy Ting Chengto, and the Viceroy himself has been ordered by the Grand

Council to proceed to Linanfu and retake it at all costs and to assist the French railway party, as we have already reported. The Journal admits that it does not know whether all these stories are true, and continues, "but we know that the Viceroy has gone to the scene of the disturbance, and that the prefect of Linanfu has been killed." While adding that Yunnanfu and Mengzi have been besieged, that Homitcheou and Chepingcheou have been captured, and that telegraphic communication between the Capital and Tonking has ceased, we venture to assert that up to a few days ago there were no French soldiers in the vicinity of Yunnanfu, and that none had been despatched although the lives of nearly two hundred French men, women, and children were in danger. That the situation is desperate will not be doubted, seeing that previous to the siege the Viceroy Ting Chengto would not vouch for the security of foreigners outside of the capital. What action the French intend taking remains to be seen, but if news of a reassuring nature does not soon come to hand it will not be surprising to learn that they have joined their troops over the frontier to relief their besieged nationals in the cities of Yunnanfu and Mengzi. Such a step at this juncture need cause no international jealousy especially when it is considered that the Chinese officials have found themselves powerless to cope with the crisis. The French have good reason to take timely action to relieve the condition of their subjects placed in imminent peril by the helplessness of Chinese officials.

## LOCAL AND GENERAL.

H.M.S. "Lancer" went into Dock yesterday.

The Shanghai Electric and Light Co., Ltd., has been successfully floated.

Now look out for LeMaynon's new store advertisement.

THE Sze-tung Cotton Spinning Mill, after having been closed for several months, is running again under a new management.

MARSHAL DA KONG PHO of Kwangsi, who has been ordered by General Elliot to proceed to Laking, arrived at the Kwangtung Provincial city on the 27th ult.

THE *Shanghai* says that four clerks of the Penang Port Office have been dismissed from the Government service for carelessness and being negligent letters.

IT is understood that Colonel Thorneycroft, of Spion Kop fame, may possibly succeed General Croagh in command of the Indian Contingent which remains in China.

PLAGUE has made its appearance at Port Said in the person of a grocer's assistant of Greek nationality employed at a store near the bazaar. Several dead rats were found in the shop where it worked.

IT is reported by the *Shanghai* that the Wai Wu Fu has offered the mining and railway privileges in Mongolia and Tibet to Russia in consideration of the evacuation and restoration of Manchuria.

AS first reported in the *Telegraph* the *Pembroke* has left the docks at the Saddles. She will need a good overhauling and it is considered that it will be some time before she is ready for service again.

A DISPATCH from Madrid brings the report that Alfonso XIII, king of Spain, has fallen heir to estates valued at seven million dollars. The legacy comes from the closing up of the estate of the king's grandfather, who was possessed of great wealth.

MR. T. I. ROSE, the popular secretary of the Hongkong and Whampoa Dock Co., returned to the Colony to-day and to all appearance seems much benefited by his holiday. He resumes his duties in the Dock Co. carried on with such marked ability by his *locum tenens*, Mr. G. A. Caldwell.

THE Throne has issued instructions through the Wai Wu Fu to all the Viceroy and Governors in the Empire to do their best in exploring the merchants in their several jurisdictions to go to Japan and America to witness the Osaka exhibition and the St. Louis Exposition, respectively, as a preliminary step for the holding of similar exhibitions in China in the near future.

ADVICE has reached an influential quarter in London from New York to the effect that an agent of the Japanese Government will arrive in England early next month for the purpose of placing orders for a large number of railway locomotives. It appears that he was sent to the United States with a view to placing a portion of the order, but as American firms could not complete and deliver within the specified time, he is to arrange for the whole of the commission with British manufacturers.

THE laying of the section of the Pacific cable, that is to connect Manila and the Philippines with Guam began on the morning of the 24th ult. The Manila end of the cable was landed at Malabar by the cable ship *Anglo*, and at 7 o'clock the next morning that vessel steamed to sea untrailing the cable as she proceeded. It is estimated that the *Anglo* will immediately land the other end of the cable putting the Philippines in immediate touch with the other island possessions of the United States in this part of the Pacific.

## PRESENTATION TO CANTON.

HARBOUR MASTER.

We have previously referred to the departure for England, on account of the ill-health of his wife, of the popular and genial Harbour Master of Canton, Mr. L. A. Byworth. As one token of the esteem in which he is held the outdoor staff of the I. M. Customs presented him on Saturday last with a handsome and elaborate solid silver punch bowl on which was inscribed:—  
"Presented to L. A. Byworth as a mark of esteem from the O. D. Staff, I. M. Customs, Canton." The presentation was made by Mr. Commissioner Nielsen, who said that he felt honoured by being requested by the outdoor staff to be the medium for conveying their sympathy and esteem to Mr. and Mrs. Byworth. He then read the following address, which was signed by upwards of forty officers:—  
"Sir,—On the eve of your departure for home we wish to assure you of our deep sympathy in the cause which forces your absence; we refer to the prolonged illness of your dear wife and ask you to assure her of our sympathy in her sickness and wish you both Godspeed. In asking you to accept this small gift we wish you to know, Sir, that those who have donated were provoked by a sincere esteem for yourself and also in acknowledgment of the variety of kindnesses they have experienced during your regime as Tidessurveyor and Harbour Master in the port of Canton, and in wishing you Godspeed they sincerely trust you will return to this port, invigorated, by your rest, as their Superior Officer."

Mr. Byworth replied in a brief, but appropriate address, expressing the very great surprise the function had been to him. He was proud in knowing the esteem in which he was held as chief of such a service of mixed nationalities, and emphasised the fact that it had been his main effort, during his regime, to cement the staff together, and to be as lenient as possible, compatible with duty, to the staff in the performance of their arduous duties in a very trying climate.

At the close of the ceremony not a little amusement was occasioned by the reading of a rhapsody in "The Old Man." Mr. and Mrs. Byworth leave Canton to-day and proceed to England, via the States, on the *Empress* boat sailing to-morrow.

THE Weihaiwei Gold Mining Co., Ltd., sent over recently to the Yalu for timber for use in the mines, and the Russians refused to allow their order to be filled. In fact, Russia, now practically holds the Yalu, as she holds Newchwang, all protestations to the contrary notwithstanding.

## TIENTSIN.

(From Our Own Correspondent.)

Tientsin, May 21st.

The spring of 1903 will surely be handed down to posterity as the year of the great dust plague. The series of high winds and dust storms which have prevailed for the past fortnight have been something more than even Tientsin can stand. Our Spring Race Meeting which promised, with the phenomenal entry of 96 ponies, to be a particularly interesting one, has been completely spoiled so far by the most brutal weather, barring rain, that could possibly prevail, and everyone's calculations have been more or less upset. There will be some heavy losses I fear, as there is a lot of money loose this meeting.

From a friend in Newchwang I have received suggestions of dispatches which may have been sent from St. Petersburg and pigeonholed this side, or should have been sent anyway. If the Russian Government never has sent such instructions, it should have done so, and the least our Government and Secretary Hay can do is to demand the sending of such, and the acceptance of the same this side. They are worthy of reproduction as good examples of what might be and perhaps have been, who shall say?

1.—Instructions from the Russian Foreign Office to their Charge d'Affaires at Peking.  
Sir,—His Imperial Majesty's Government desires you to take note of their assurances to the Governments of the United States and Great Britain that they have no objection to the opening of new ports and interior towns in Manchuria and Mongolia to foreign trade, nor to the establishment of foreign consuls in any town in those provinces.

You are hereby desired to adhere loyally to the line of action necessitated by these assurances, and to hand a copy of this despatch to the Chinese Government and to the Diplomatic Representatives in Peking of the United States, Great Britain and Japan.

2.—Instructions from The Russian Foreign Office to Mr. V. Grosse, H. I. R. M.'s Civil Administrator at Yingkou (Port of Newchwang).

Sir,—In order to convince the rest of the world of our bona fides, you will, on receipt of this, at once discharge the persons employed in the Civil Administration, and will in the presence of the foreign consuls hand over the Civil Administration of your port to the Chinese Tactai, or if he is detained elsewhere, to the Chinese Guild; you will also hand over the control of the Chinese Customs to the gentleman in charge of the Imperial Maritime Customs, and you will desire the Russo-Chinese Bank to remit to the Customs Bankers in Shanghai, all the duties deposited with them by the Imperial Maritime Customs.

You will further withdraw all the patrols and the land and river police, and will restore the telegraph office to the Chinese Imperial Telegraph Administration. In the event of any trouble from robbers or others, you will raise no objection to sailors or marines of other Powers being landed to maintain order or repress crime. If you carry out the evacuation promptly and fully, you will be allowed to retain as Consul the salary that you now enjoy as Administrator.

You will at once hand a copy of these instructions to the Consular Body through the Senior Consul, and send another copy to the Tartar General at Moukden."

Serious fears are entertained in the City that if nothing is arranged in regard to finances before the Mid-Summer festival some important native firms will go bankrupt. Bills to the amount of Tls. 140,000 are coming due to foreign creditors within a few days and no one knows how they are to be met. The Tientsin Prefect Ling has been trying to get the local gentry to raise a million taels, and to borrow the rest from the Board of Revenue. He is much opposed to any foreign loan. The Board of Revenue, however, professes to be run dry. Whether it is to preserve face in this respect or because the Peking officials have been so busy filling their pockets that they have emptied the vaults there is no saying; but one of the Censors has memorialized the Throne to cut down the programme for the Empress Dowager's birthday celebrations, while one of the Imperial Astronomers has discovered the light railway to the Summer Palace is destructive to the fengshui and it has been summarily stopped, and all contracts for land, etc. have been cancelled. The repairing of the Chen Yang Miao has also been stopped. The only thing which never seems to stop is the Palace entertainments. They go on as merrily as ever. The commercial outlook in Tientsin are inclined to smile when they hear whispers in these days that the Legation folks are getting deadly sick of these eternal visits to the Palace. They started the ball rolling, but the deadly monotony of it is beginning to pall, the more especially as our prestige has in no way become enhanced for all the hobnobbing.

The daughters of Yu, the late Minister to France, whose wife I believe was a Miss Nellie Pearson of Shanghai, have been allowed to attend Court in Paris dresses, as they have many Chinese dinners, decocted causing a scandalized amusement. It is said they have been showing the Empress Dowager and Court ladies what foreign dancing is like.

A COMPARISON of the plague statistics of the two cities, Manilla and Hongkong, shows at a glance how faithful and efficient has been the work of the Insular Board of Health and demonstrates beyond a doubt the efficacy of the means employed, inoculation, and the killing of rats. Hongkong, although a better drained and more modern city, has shown a continually increasing number of plague cases. Few people realize the importance of the work of the Board of Health and still fewer know how well it has done that work, says the *Manilla Times*.

## THE SHANGHAI MURDER.

(From Our Own Correspondent.)

The preliminary hearing of this case has been gone through.  
The *Mercury* understands that a telegram has already been despatched to the authorities at Macao and an escort will be sent to Shanghai to take Souza there. Since his arrest the prisoner, the journal understands, has admitted his guilt, stating by way of excuse that he was provoked by the smashing of his window, and on ascertaining that it was done by a Chinese who was noticed to be running in the direction of Hanbury Road he picked up a table knife and rushed out. He met the Chinese lad at an open plot of land near Hanbury and Singke-pang Roads and dealt him a blow. The knife, which Souza avers to have thrown into the creek near by, has not been traced as yet.

## THE LATEST RUSSIAN MOVE IN MANCHURIA.

The added demands recently presented by Russia to China as the price of her so-called evacuation of Manchuria bear a strong family likeness to the proposals put forward when the terms of evacuation were agreed to by the Russian and Chinese Governments. Unsophisticated persons would have thought that the matter was then settled, after it was discussed between the two directly interested parties, whilst other Powers had a hand also in the negotiations. It appears, however, that such was not the case, and that those negotiations only sufficed for the moment, and that now the time has actually come for handing over the Treaty port of Newchwang, that this and other points crop up again for discussion and settlement. Until certain official statements regarding Russia's alleged purposes were made the opinion prevailed that her demands were really put forward tentatively and not in regular official form. That they were indeed put forward with no appearance of an ultimatum attaching to them, and in such a way as would permit of her withdrawing them if resisted. China, as usual, soon made the terms known, and the support given to China by London, Tokyo, and Washington has already convinced Russia that it is prudent to retreat. This, at least, is the plain interpretation to be put on the *démarche* given out in St. Petersburg and Washington, and the alleged assurances to the United States Ambassador at St. Petersburg. The United States indeed figured in the transaction as guardian of both the integrity of China and the champion of the "Open door." That Great Britain has also taken the matter up is shown by the reply given by Lord Lansdowne to Earl Spencer in the House of Lords, and though silence was enjoined whilst the negotiations were in progress, the Foreign Secretary "did not anticipate that the silence he was obliged to keep at that moment need be of long duration." Such, indeed, proved to be the case. There is little doubt that Japan has likewise made her views known, and under the combined support China has given Russia what is described as a final and definite refusal to accept the Russian demands in regard to Manchuria. Whatever Russia's intentions may have been, we must only hope that the reply of the Russian Foreign Office to Mr. Hay's note of inquiry as conveyed to the United States Ambassador at St. Petersburg represents what Russia now intends; but we must also remember that Count Lamsdorff does not cover all the points, and we may infer so much from the final statement drily added at the end of the *communiqué* of the State Department that a close watch will be kept on the course of events in North China and Mongolia as well as in Manchuria. In official circles in this country Russia's assurances are considered to have removed any immediate danger, although the explanation offered is not looked upon as altogether satisfactory. It is thought that Russia made a bold attempt to conclude an agreement with China unknown to the other Powers but finding that the facts had leaked out she repudiated the worst features of the Note.

It would seem, then, that the procedure has followed closely the course of events on the former occasion. Then we had a Convention dealing predatorily with Manchuria presented to China by Russia. Great Britain, America, and Japan disapproved of it, and strongly recommended China to reject it. China followed the advice of the Allies, whereupon Russia discovered that her intentions had been greatly misrepresented, and declared that she renounced all further negotiations. The same thing happens again, and it shows us that Russian duplicity is, after all, not so phenomenally subtle, but that it is extremely persistent, and that it only recoils but to return again. But it has shown us that we may at any moment arrive at a parting of the ways, when a middle course would not exactly be a feasible position to assume. The so-called evacuation may be only the withdrawal of the troops from the towns to the adjacent line of railway, where a change in the shoulder straps promptly turns the soldier of yesterday into the railway guard of to-day. This is a fiction that the interested Powers have probably acquiesced in. And after all Russia has the Treaty right to guard the railway, and no stipulation as to numbers is imposed upon her. If Russia was content with this *de facto* position complaints of her policy would not be forthcoming from London, Tokyo, and Washington. But attempts such as that just made must bring forth complaints from these trading Powers. They have the Treaty right to see that the occupation of Newchwang is not persisted in, that the Customs whose revenues are pledged for the service of foreign loan shall not be tampered with, that attempts at civil interference in a Treaty port are not permitted, and that no matter what portion of Manchuria Russia holds, in the military sense, the foreign trade shall be allowed to proceed as freely and under the like conditions to that on which it is

carried on by Treaty in any other portion of the Chinese Empire. But it is evident that it does not do to entirely rely on her own promises to abstain. When we see that promises made on previous occasions have been subsequently disregarded, if not flagrantly broken, it behoves that the "earnest attention" of the British Government should be added to the watch that is to be maintained in the United States, and the vigilance we know is constantly exercised in Japan, so that some practical result will be the outcome.—*L. & C. Express*.

## PROMOTION FOR H.E. WU TING-FANG.

The *N. C. D. News* is pleased to state that, according to a Peking telegram received yesterday, H.E. Wu Ting-fang, Associate Chinese Treaty Commissioner, has been appointed by Imperial decree a Director of the Court of State Ceremonial (Hung-lu Shih-shihing), one of the lesser Boards or "Courts" of Peking. It is a post of the Metropolitan four grade, class A, the "expectant" rank for which was bestowed upon H.E. Wu Ting-fang when leaving the United States for China to take part in the present revision of the treaties. With this appointment to a substantive post in the capital—although somewhat late in the day, when taking into consideration the amount of work H.E. has done for his country—and inadequate as it may seem, it opens the way for H.E. to much higher and more distinguished positions in the Imperial Government in the future, which could not be obtained by him before this, as his rank hitherto had been what Chinese term "Hsü" or by brevet. But now as Director, or President of the substantive office of the Court of State Ceremonial H.E. is put in direct line for such high posts as a Vice-Presidency and follow that a residency of one of the Six Boards—the *tsunmu* bureau of mandarinism. With his talents and opportunities there is no reason why H.E. Wu Ting-fang should not be soon filling one of the posts indicated above.

## COMMERCIAL.

TO-DAY'S INTELLIGENCE.

May settlement was brought to a conclusion without any disturbance in the exchange. It was of extremely small volume. Business for the first day of the month, yesterday being a *dies non*, is comparatively good after the quietness of the past few weeks. MACAO STEAM-BOATS changed hands at \$7, so also did STAR FERRIES (old), CANTON INSURANCE, and CHINA and MANHAI at the following rates, respectively:—\$15.75 to \$25.50; \$17.50, and \$26.50 to \$27. Shares of the following companies are required for without finding sellers at the rates quoted:—

HONGKONG BANKS, .....\$6.6  
SHELL TRANSPORTS, .....\$17.6  
CHINA SUGARS, .....\$10.6  
In Shanghai a better feeling prevails after the settlement the other day. LANGKATS have recovered to Tls. 280 and FARNHAMS to Tls. 185.

## FREIGHT MARKET REPORT.

Writing under date Shanghai, 28th ult, Messrs. Wheelock & Co. state:—  
Our Homeward freight market continues in the same dull state as at last time of writing and prospects of cargo for the near future are not very encouraging in any direction.

Coastwise.—There is not much change to report in this and coast rates are weak at the close, there is some demand for prompt tonnage to load coal from Japan to this, but at the moment there is nothing suitable offering.

COAL AND KEROSENE OIL.  
Coal.—Japan.—We have no change to report; the market continues very quiet. Rates of freight have been varying considerably and charters have been made at Tls. 1.40 to Tls. 1.70 while it closes at Tls. 1.60 with but little demand.

Cardiff.—The absence of stocks is the cause of no business, but the demand has been fairly good.

The *s.s. Arara* arrived on the 26th instant with about 5,000 tons which is consigned to consumers.

Sydney Wollongong.—Local business has been dull as is generally the case at this time of the year.  
The *s.s. Empire* arrived on the 16th instant with about 1,500 tons landed for sale.  
Kerosene oil.—The natives have been doing but a small business at Tls. 2.84 per case, but we have heard of sales from importers at Tls. 2.35 per case less 2% and who are now asking a slight advance. Anchor chop has declined somewhat and Tls. 2.10 has been done and for cargo to arrive Tls. 2.20 is now asked.

Bulk oil has also a slight inquiry, and has changed hands at Tls. 1.764 net, and at Tls. 1.80 per two tins less 2%. There has been nothing done in Dragon chop, Tls. 1.923 is being demanded less 2%. There have been no arrivals.

## SHANGHAI SHARE REPORT.

The following extracts of the week's share transactions are from Messrs. J. A. Sullivan & Co.'s report published on the 27th ult.

High interest between 25 per cent and 30 per cent still continues in native circles and shares have been difficult to place even at falling rates. The sensitiveness of a stock like Langkats has been particularly affected and a drop of 25 points has to be recorded this week. Indos have remained steady and only a slight advance was made on the announcement of a 5 per cent dividend. Farnhams firmed up when it became known that the *Pendikshire* (s) was safely towed into dock for repairs. In other stocks there has been little done. The demand rate on London has receded to 2/4 3/16. Console 5914. From Hongkong the three days' sight is quoted at 7 1/4.

Shipping.—Indo-China were sold before the declaration of 5 per cent dividend at Tls. 76

Tls. 75 1/2 for cash and for the settlement at Tls. 76, but afterwards rates stiffened and Tls. 79 was paid for this month's clearance. To-day prices are lower and Tls. 77 1/2 has been accepted for the same date. June sales have been reported at Tls. 77. Tls. 76 1/2 and yesterday Tls. 81 was paid. Shares are offering to-day at cheaper values and Tls. 79 would be accepted. For July sales at Tls. 78, Tls. 77, Tls. 77 1/2 were announced and afterwards at Tls. 80 1/2. An August transaction is reported at Tls. 78. The want of easy money curtails a considerable business in this stock, as there are willing buyers who cannot finance at the moment. Shell Transports are inquired for at quotation, £1 9/8.

Docks.—A steady business, although small in volume, has been done in Farnham Boyds at \$186, 86 1/2 for cash. For the approaching settlement transactions at Tls. 186 1/2, 187 1/2, 188 are reported, the last rate being a forced sale. For June Tls. 190 has been freely done. July shares have been located at Tls. 192 1/2. Hongkong are unchanged.

Cotton.—The only demand in the market exists for Laos-Kung-Mows at Tls. 40 and at this figure a small sale has been made. The tightness of money is the sole cause of the seeming neglect of these stocks.

Sugar.—Chinas have been sold at \$106 and 1/2, 7 1/2 to Hongkong.

Mining.—The April returns from the Raub estates give 730 oz. of gold won from 2,900 tons of stone. Chinese Engineering and Mining shares are not in demand at present. There are sellers of Weihaiwei Gold Mines at par. During the week shares were placed at \$21.

Tobacco.—Sumatras continue quiet without inquiry. Business has been done in Maats' choppy in Langkats at Tls. 297 1/2, 295, 302 1/2, Tls. 295, 290 and Tls. 285, 280, 275 for cash and settlement. June shares have been placed at Tls. 305, 307 1/2, 300, Tls. 305, 297 1/2, 300, Tls. 295, 292 1/2, Tls. 285, 280. July sales are quoted at Tls. 305, 312 1/2, 302 1/2, 305, Tls. 307 1/2, 295, Tls. 287 1/2, 285. August has not been favoured. September sales are quoted at Tls. 322 1/2, 320, Tls. 317 1/2, 315, 312 1/2. October shares were booked at Tls. 322 1/2, 320, 317 1/2 and to-day at Tls. 305, 310 1/2.
